College of Agriculture
Department of Genetics
Madison 6 / Wisc. - USA

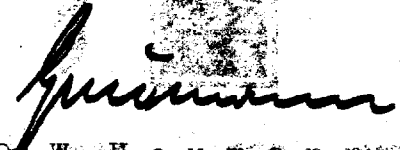

Dear Professor Lederberg,

I beg to thank you very much for sending me your reprints. The study of these publications will help me to get familiar with your work and to prepare for my staying with you.

In the meantime I have applied to the Deutsche Forschungsgemeinschaft for a scholarship at Madison. It is to be expected that this application will be granted. In this case I should get a monthly amount of \$ 300.- for myself and for the supply of my family. The passage will be paid extra. I hope that this amount will be sufficient and that there is no need to apply to the Fulbright-Commission and to the Rockefeller-Foundation as well. As soon as I have got the final decision of the Deutsche Forschungsgemeinschaft, I shall let you know.

Meanwhile I am

very sincerely Yours,

(Dr. W. Heumann)
